Summary

Cloud, DevOps, and Agentic Engineer with Computer Engineering background. Proven experience engineering and deploying production serverless systems on AWS, high-performance Go microservices, and secure LLM workflows with Amazon Bedrock Guardrails. Specialized in IaC via AWS CDK, CI/CD automation, and low-cost, high-reliability cloud architectures.

Technical Skills

- **Languages:** Go, Python, TypeScript, JavaScript, C++, SQL, Bash
- **Cloud & DevOps:** AWS (Lambda, DynamoDB, Bedrock, API Gateway, CloudFront, S3, Cognito, EventBridge), AWS CDK, Docker, GitHub Actions, Linux, CI/CD
- **Frameworks & Tools:** React 19, Node.js, Express, FastAPI, WebSockets, Deck.gl, MapLibre GL, Tailwind CSS, Vite, Postman
- **Architecture & Security:** Serverless IaC, Bedrock Guardrails (Prompt Defense, PII Masking), Socket-Level SSRF Guard, RBAC, HMAC Webhooks

Featured Projects

AreWeUpYet — Multi-Tenant Synthetic Uptime Monitoring SaaS

Live Demo

Go, AWS Amplify Gen 2, AWS CDK, Cognito, DynamoDB, React, TypeScript

GitHub

- Engineered multi-tenant synthetic probing engine in Go Lambda with automated 1-minute EventBridge cron execution.
- Implemented custom socket-dial SSRF defense blocking DNS rebinding, private subnets, and AWS IMDS metadata IPs.
- Delivered HMAC-SHA256 signed webhook dispatching and public status pages with 30-second live polling and latency curve tracking.

Deony — Generative AI Media Experience Archive

Live Demo

React 19, TypeScript, AWS Bedrock, Bedrock Guardrails, Lambda ARM64, DynamoDB, AWS CDK

GitHub

- Architected serverless archival platform featuring “Deonyssus”, an AI critic agent powered by Amazon Bedrock (Claude 3 Haiku / Nova).
- Engineered Responsible AI defenses using Bedrock Guardrails: prompt injection interceptors, live PII redaction, and DynamoDB context grounding.
- Designed 4 on-demand DynamoDB tables with secondary indexes, Cognito JWT authentication, and automated Playwright E2E testing.

DGOS — Digital Guest Ordering System

Live Demo

React, TypeScript, AWS Lambda, API Gateway WebSockets, DynamoDB, Cognito RBAC, AWS CDK

GitHub

- Built production restaurant ordering platform with 3 independent SPAs (Customer, Kitchen, Admin) running on AWS at ~\$0.80/month.
- Implemented real-time bidirectional order updates via API Gateway WebSockets with exponential backoff and heartbeat reconnects.
- Provisioned IaC via AWS CDK: 7 DynamoDB tables with PITR, S3 presigned upload flows, 9 CloudWatch alarms, and DLQ pipelines.

maylupa — Philippine Geospatial Infrastructure & Methodology-Cited AI

Live Demo

Python 3.12, AWS Lambda, Amazon Bedrock, Deck.gl, MapLibre GL, S3, CloudFront

GitHub

- Visualized 1,613 Philippine cities and municipalities at 60 FPS using Deck.gl WebGL and MapLibre GL linked via 10-digit PSGC codes.
- Integrated Amazon Bedrock assistant grounded in official government methodology documents citing exact section anchors at \$0.00/mo cost.

Experience

Tech Support Intern <i>City Government of Trece Martires – ICT Division</i>	Jul 2025 – Sep 2025 <i>Trece Martires City</i>
- Validated and normalized 13,000 legacy citizen records, improving municipal data accuracy and retrieval integrity. - Supported inter-department rollout of Document Tracking System through validation, onboarding, and issue resolution. - Diagnosed hardware, network topology, and workstation incidents across government office endpoints.	
Part-Time Systems Support <i>NLMontano Accounting Firm</i>	2021 – Present <i>Trece Martires City</i>
- Managed electronic government remittance filings (SSS, PhilHealth, Pag-IBIG) with zero audit discrepancies. - Administered workstation provisioning, local network maintenance, and data backups for accounting workflows.	

Education & Certifications

Cavite State University <i>Bachelor of Science in Computer Engineering</i>	2022 – Present <i>Cavite, Philippines</i>
• AWS Cloud Solutions Architect Professional Certificate – Amazon Web Services	June 2026
• Go (GoLang) Specialization – Packt	June 2026
• Cisco Network Automation Engineering Fundamentals Specialization – Cisco	May 2026
• IBM DevOps, Cloud, and Agile Foundations Specialization – IBM	May 2026
• Google AI Professional Certificate – Google	April 2026
• Google Advanced Data Analytics Professional Certificate – Google	May 2025
